

A photograph of a swimming pool with a person in a yellow swimsuit in the background. In the foreground, a Dolphin Diagnostic pool cleaner is shown. The cleaner is teal and pink with a yellow handle. It has a blue hose attached to the back. The cleaner is positioned in the pool, and a large splash of water is visible on the left side of the image.

Never stops working for you
Maytronics - The Art of Pool Cleaning Technology

www.maytronics.com

Recommended for pools up to 12 m. (40 ft.) in length.

Dolphin Diagnostic is the hard-working robot that is programmed to last the distance.

Dolphin Diagnostic is the robust, reliable and affordable member of the Dolphin family, renowned for its sturdy structure, wall climbing capacities and credible cleaning record. Being a tough yet smart player, Dolphin Diagnostic will scrub, brush, sweep, vacuum and filter the entire pool in just 3 hours.

Large filter surface ensures your pool stays crystal clear and helps to minimize use of cleaning chemicals.

Dolphin Diagnostic is the dependable robot trained to keep cleaning personnel at a distance.

Dolphin Diagnostic Advantages:

- An affordable long-lasting ruggedized robot.
- Climbs walls and cleans the water line.
- Large filter surface collects dirt, debris and even dust particles.
- State-of-the-art most advanced self-learning scanning programme, optimizing pool coverage.
- Scrubs, brushes, vacuums and filters the entire pool-floor, walls and water line.
- Microprocessor controls self-diagnostic cleaning.
- Environmentally-friendly cleaning process, requiring less chemicals.
- Reduces need for pool cleaning personnel.
- Equipped with Caddy for handling and storage (optional).

Dolphin Diagnostic Specifications:

Cycle time	3 hours	
Cable length	20 m.	67 ft.
Filter bag porosity	50 micron	
Suction rate	16 m ³ per hour	4,233 gal (USA) per hour
Motor unit voltage	24 VDC	
Power supply	IP 54	
	Input 230 VAC	
	Output 30 VDC
