

High Performance in a Compact Body

2X 3.375-8 BU1T 2A

Jandy's PlusHP pumps are designed with the high performance of a larger pump in a compact body. The smaller size of the PlusHP makes it a great replacement pump for pool and spa renovations. The PlusHP is designed with "Quiet Technology" and a larger trap basket for increased debris holding capacity. The PlusHP pumps deliver superior performance that is especially useful for in-floor cleaning systems, spa-jet boosters and solar systems.

COMPACT

The compact body of the PlusHP takes up less space making them the perfect pump for small equipment areas. They are great for replacement pumps and pool and spa renovations.

QUIET TECHNOLOGY

Jandy's line of PlusHP pumps incorporate "Quiet Technology" into every pump. This proprietary design controls the flow dynamics within the pump, resulting in less noise and quiet operation.

HIGH EFFICIENCY

Also available in a highly efficient two-speed model that will save up to 60% on electrical consumption compared to single speed pumps. Jandy's proprietary impeller and diffuser design provide the highest performance and efficiency levels.

GREAT FEATURES

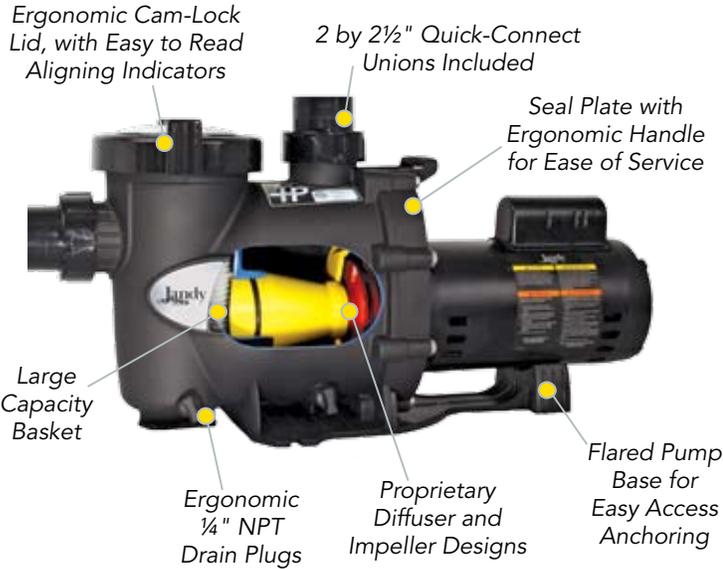

The PlusHP offers many great features including 2 by 2½" quick-connect unions, a flared base for easy anchoring, an ergonomic cam-lock lid with easy to read aligning indicators, and a AO Smith motor.

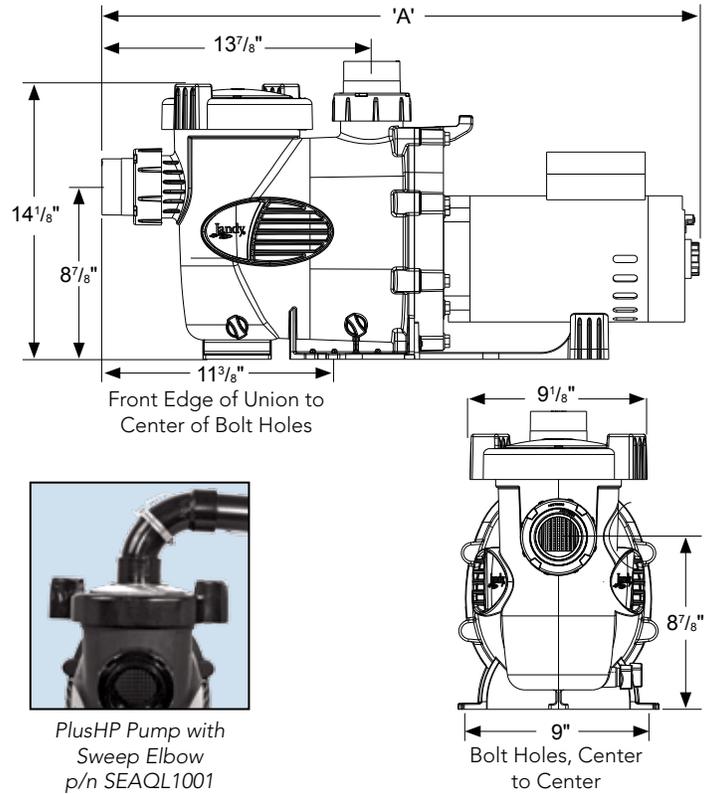

Jandy PlusHP Pumps - High Performance

Jandy's line of PlusHP pumps are powerful, efficient and compact. They are available in a wide range of sizes including single and two-speed models. The PlusHP's impeller and diffuser provide high performance and efficiency levels. The compact body design of the PlusHP allows it to easily fit in small equipment areas making it perfect for retrofits and renovations.

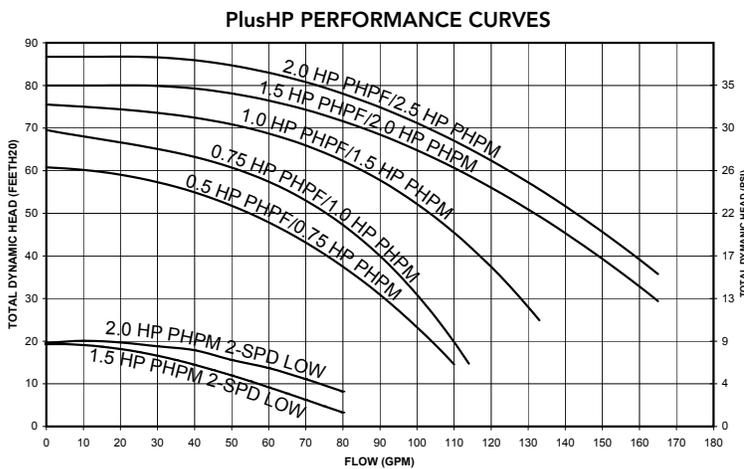

PlusHP PUMP DIMENSIONS
