COMMERCIAL POOL CLEANERS

# Hayward® Commercial Cleaners

Hayward Commercial® offers a complete line of commercial cleaners. They're built strong, designed to last and backed by a nationwide network of factory authorized service centers. It's no wonder they were chosen to clean Olympic pools in Seoul, Los Angeles, Barcelona, Atlanta and Sydney.

- Pre-set work cycle
- Patented easy-clean filter cartridge
- Includes caddy cart

## TigerShark®2 and TigerShark2 Plus with Remote

The most advanced automatic, portable pool cleaners in the industry.

These cleaners have a preset 7-hour cleaning cycle. They calculate the size of your pool with on-board computers and program themselves for the most efficient cleaning pattern. They even shut off at the end of their cleaning cycle. Powerful on-board pumps suck up dirt and debris, while they scour pool bottom, walls, inclines and steps. They feature a patented easy-clean removable cartridge. Just remove and rinse clean with a garden hose. TigerShark2 Plus includes wireless remote control, to maneuver around the pool bottom with ease, or spot clean whenever a full cleaning cycle is not needed.

- 60 minute clean time (average 16' x 32' pool)
- Self-contained filters
- Built-in Vac Chlor System

## MakoShark2

The fastest cleaning time, fully automatic and self-contained.

Just place it in the pool, plug MakoShark2 into a GFCI outlet and watch it go! Fully automatic and self-contained, it requires no special installation and there are no hoses to get in your way. Keep MakoShark2 in your pool as long as you need it and remove it when the pool is clean. The patented easy-clean filter cartridge makes clean-up simple. Just remove it and rinse it with a garden hose. MakoShark2 is also the only automatic cleaner that can chlorinate while it cleans! Simply add a standard 3" chlorine tablet to the convenient Vac Chlor holder to chlorinate your pool each time you vacuum, for sparkling clear water.

## KingShark

Cleans small commercial pools in less than four hours.

KingShark is made especially for smaller commercial pools, but performs with the same ease and efficiency as larger units. KingShark can clean pools up to 30' x 60' in less than four hours. Just plug it in and it's ready to go. It's completely automatic, with no hoses or hook-ups required. Remove the KingShark when your pool is clean and simply rinse the removable filters.

- Completely self-contained
- Optional caddy cart

## KingShark2

Cleans Olympic size pools in less than five hours!

KingShark2 is made for Olympic size pools larger than 30' x 60'. In fact, it's the world's most popular commercial pool cleaner. It tackles the most demanding pools, completely cleaning an Olympic size pool in less than five hours. The KingShark2 is completely automatic and self-contained, requiring no hoses or filter hook-ups. An AV swivel allows the KingShark2 to maneuver throughout the entire pool while avoiding obstacles and minimizing cord twisting. Just place it in the pool, plug the KingShark2 into a GFCI outlet, and remove it when the pool is clean. Universities, schools, resorts and recreation departments count on the performance and dependability of KingShark2 commercial pool cleaners.

- 3-5 hour work cycle
- Quick Release Filter System
- Self-contained filter cartridge
- Optional caddy cart
- Optional hoist

## KingShark2 Plus with Remote

Cleans Olympic size pools in less than five hours!

This world-class performer has been used to clean pools at six Olympic games from LA to Athens. KingShark2 Plus has all the features of the KingShark2, plus it gives you the option of spot cleaning, or quick clean-up, using the wireless, handheld remote control.\* Additional features include a control box with built-in digital timer for overnight cleaning and an extra set of filter cartridges. Its Auto Turn feature allows the KingShark2 Plus to maneuver around the entire pool without getting caught in lane markers or stuck in unusual corners. Its Caddy Cart allows convenient mounting of the control box, portability and easy storage. \*Export units utilize wired remote for cleaner control.

- Hand-held wireless remote control
- 3-5 hour work cycle
- Quick Release Filter System
- Self-contained filter cartridge
- Includes caddy cart
- Optional hoist
