Push-button control from your home, patio, poolside, or spa

If you own a control system from Pentair Water Pool and Spa® you are already enjoying the ease of push-button pool and spa automation. But with the QuickTouch® II Wireless Remote, you can add even greater convenience and portability to your automated control system. At the touch of a button on your handheld remote, you can ready your pool or spa for relaxation from the comfort of your poolside lounge—or almost anywhere up to 200 feet from your pool equipment area.

- Instantly activates water features and functions.
- Controls up to four functions, including spa filtration/heating, spa lights, spa jets, pool lights, water features and landscape lights.
- Separate on/off buttons control each function for optimum simplicity.
- Automatic shut-off capability for extra peace of mind.
