

EXPLORE THE POSSIBILITIES WITH AQUACONNECT:

- Use your mobile device to turn your pool lights on and off when you're away.
- Turn up your pool or spa heater before heading home from work.
- Monitor multiple residences such as vacation homes.
- You and/or your pool service company can monitor your pool and spa and receive notifications of potential problems 24 hours-a-day, 365 days-a-year.
- Receive alerts when a function goes out of the predetermined, acceptable range.
- Choose to receive alerts by email, text message or a combination, in addition to monitoring visual indicators on the unit and Web page.
- Access easy to read graphs that display trends, so you can evaluate parameters that are important in making adjustments.
- View and store your pool's service visit history, so you can plan ahead and save money.
- Avoid unnecessary service calls.

AQUACONNECT ORDERING CHART

LITAQCONB15

Manage your pool and spa from anywhere in the world quickly and easily.

AUTOMATION

AquaConnect[®]
REMOTE POOL MANAGEMENT SYSTEM

Total System: Pumps | Filters | Heating | Cleaners | Sanitization | **Automation** | Lighting | Safety | White Goods

Enjoy the Luxury of Full Control.

AQUACONNECT® PUTS POOL MANAGEMENT AT YOUR FINGERTIPS.

At home or on the road, the Hayward AquaConnect system connects to your pool controller to give you the ability to monitor your pool and spa settings, adjust parameters and receive automatic alerts if a problem is detected. You can manage pH and sanitization to achieve and maintain the perfect water chemistry, turn up the spa heater before you head home from work, turn lights on and off, activate waterfalls and more, all while conserving energy. Anything you can do from your pool controller, you can now do anywhere. This level of control also enables you to reduce operating costs by keeping chemical use to a minimum, avoiding potential problems before they become major, and keeping heat low until you need it.

AQUACONNECT APP

Streamline your Platform Navigation

This convenient app for iPhone, iPad and Android makes settings and adjustments easier to use, and offers more simple platform navigation.

AQUACONNECT WEB

Connect to your Pool from the Web

Monitor and react to more than 100 parameters and settings via Hayward's premium remote pool and spa management website.

AQUACONNECT HOME NETWORK

Manage your pool through your home's WiFi network.

Manage pool and spa functions through your home's intranet, giving you access without needing to be on the web.

AQUACONNECT HOME AUTOMATION

Integrate with home automation.

Control your pool and spa on the same device as your other home and backyard features through the integrated home automation adapter.

THE TECHNOLOGY AT THE HEART OF AQUACONNECT.

The AquaConnect platform was designed to work with Hayward's leading edge Automation Systems. Whether you need more robust backyard control with the ProLogic automation system, desire a system that comes with salt such as AquaPlus or AquaRite Pro, or simply need an entry-level solution like E-Command 4® or OnCommand®, Hayward has control technology that meets your backyard needs.
