

# INDOOR BLOWERS

## MAX AIR

NEW high performance motor runs cooler and quieter. As low as 65 decibels. Small and compact, ideal for bathtubs: LxWxH - 9"x6.5"x6.75"  
Available options include: air or electronic three speed control, and heater.

The revolutionary new motor dramatically improves performance while running cooler and quieter. In a typical spa you can expect up to 25% more air and 30% greater pressure than with a standard motor. New housing design with bottom air inlet creates a tortuous path, trapping noise inside the blower for ultra quiet performance. Small profile with easy access mounting tabs makes installation a snap.

HP	AMPS	VOLTS	AIR-FLOW (CFM)	SEALED PRESSURE*
1.0	4.5	110	105	65
1.0	2.5	220	105	70
1.3	7.0	110	105	95
1.3	3.5	220	105	95
1.8	9.0	110	105	110
1.8	4.5	220	105	120

## Superior Performance At Just A Whisper ULTRA 9000

A highly advanced super quiet blower designed for O.E.M. and portable spas. The Ultra 9000 offers:

- Completely redesigned intake manifold to eliminate small objects and debris from entering blower and causing failure
- A unique rubber motor mount which absorbs noise and vibration
- Available with 3 speeds, and heater
- A two inch tapered slip fitting eliminating the need for glue or clamps

HP	AMPS	VOLTS	AIR-FLOW (CFM)	SEALED PRESSURE*
