AZOR

Resin injection molding is one of the things that makes the Azor such an eye-opener: a revolutionary process that eliminates corrosion risks and guarantees long-term dependability. A streamlined design means fewer parts and easier installation!

top ledge

- 8-inch injection-molded top ledge
- Incorporates multi-ribbed supports for optimum stability
- Features a sophisticated looking metallic logo
- Two-color contrast provides incredible style

wall channel

- Resin wall channel at both the top and bottom
- Smooth shape increases pool strength

assembly system

- Upper joiner screws to top ledge and upright using a simple top-down system
- Oversized upper joiner plate ensures greater stability for top ledge
- Upper joiner also acts as a ledge joint: fewer parts, easier installation and cleaner look
- Perfectly fitting and locking parts
- Upper plate in a complementary shade to top ledge for contrast and style

bottom snap-in joiner plate

- Joiner plate attaches to uprights using a snap-in system, no hardware required
- Smooth, quick installation into upright
- Made of resin: solid and corrosion-proof

upright

- 6-inch injection-molded upright, with extra depth for greater stability
- Three-dimensional injection molding means greater detail and solidity
- Stylish metallic ring at the top of the upright

Yard Extender System

Our oval pools come with the Yard Extender System, a series of practically invisible lateral supports that you place in the ground. A must for anyone who wants to make the most of their yard – and their pool!

WATER SAFETY

Your above ground pool has been designed to provide you with years of safe family fun. This entails that water safety must always be taken into account. When used incorrectly, your above ground swimming pool can be dangerous; above ground pools are shallow, and this makes diving and jumping unsafe. To ensure your above ground pool is used safely you must observe the safety precautions that are provided to you when you purchase an above ground pool and conform to all local regulations.

The dimensions, weights, illustrations and other specifications may not be exact as shown and are approximate. The company reserves the right to modify and/or discontinue without notification any feature in any pool model.
