

## CF-20, CF-35

### THE ANSWER TO YOUR WELL LIGHT DREAMS

The Design and superior fire resistant materials address this industry-wide issue of fire risk with several exclusive features. The integral honey comb grate serves to prevent debris build up and provides superior glare protection. Exclusive Halogen PAR36 lamps are available in both 20 and 35 Watts.

Where the typical PAR36 lamp is rated at 300-3000 hours, the Halogen lamp is rated at 4,000 hours. This rail system allows for easy lamp access and fine tuning. No sharp stainless edges to cut your fingers.

### *The best house on the block*

Fully encapsulated lamp housing keeps terminals and lamp from being stuck in the mud. This is a very common source of system problems with inferior PAR36 Well Light products. The CF goes both ways—just flip the housing and, as if by magic, the grate fits both sides. The grate is both Lawn Mower and Planter Debris approved for application flexibility.

*This lighting fixture is rated for transient landscape moisture—it is not an underwater light.*

## ORDERING INFORMATION

# CF: Well Light

FACTORY INSTALLED OPTIONS: Order 1 + 2 + 3

FIXTURE CODE	LAMP CODE	FINISH OPTIONS
<b>1</b> CF	<b>2</b> 20 (40° beam, 4,000 Hr Halogen)	<b>3</b> XX (see options to right)
	35 (40° beam, 4,000 Hr Halogen)	

The CF includes your choice of Halogen PAR36 lamp and choice of finish.

EXAMPLE: **CF-20-CB** = CF - 20 Watt Halogen - Camo Brown Finish

### COMPOSITE

**CB** = Camo Bronze

**DT** = Desert Tan

Note: Composite finishes can not be powdercoated

### INSTALLATION NOTE:

Angled Installation

Flat Installation

For application flexibility, the CF can be installed at either end. The grate and lamp will fit both the angled or flat side of the CF body.
