CR-10, CR-20

THE FINEST SMALL SCALE UP LIGHT

The FX Luminaire CR fills the need for a more subtle light source.

We have engineered a white reflector to soften the output providing the benefit of the long life of a halogen without overpowering the space with light. The bi-pin lamp in the CR provides a mellow, even neutral light output.

This luminaire is an excellent choice for shadowing or back-lighting small plants. When used with the clear lens positioned 8-12" from a stucco wall, the CR will produce its signature elliptical scallop light pattern. This elegant technique is effective even without plants in the foreground because it breaks up the static lines of an otherwise plain straight wall.

Long-Term Contribution

Milled from solid copper and brass the CR is engineered to make a long term contribution to any fine project. Specify on winery chateaux, resorts or residential projects where the owner values products that are built for the ages.

Compare FX copper luminaires with any other, and you will find a dramatic difference in quality of materials, precision of fit and consistency of finish.

Note: This fixture is designed for up lighting only.
