

PRO SERIES® phosREMOVE™

Reducing phosphate levels in swimming pools is easy with Natural Chemistry's PRO SERIES phosREMOVE. This product is a lanthanum based formulation. PRO SERIES phosREMOVE effectively and efficiently removes phosphates and reduces pool problems!

Directions for use:

1. Backwash/clean filter and maintain proper chemical levels.
2. With the circulation system operating, slowly add product directly to skimmer, gutter or surge tank.
3. Vacuum if required.
4. Backwash/clean filter as necessary (or within 48 hours).

Note: Apply in accordance with your state and local pool regulation. Removing high phosphate levels may temporarily cause pool water cloudiness/turbidity. For high phosphate removal it is recommended to divide the initial dose into at least three separate applications to reduce the possibility of turbid or cloudy water.

RETEST PHOSPHATE LEVELS AFTER 48 HOURS (repeat as necessary).

Maintenance Dose: Weekly add 1 fl oz of product per 6,000 gallons of pool water.

Important: Algae must be treated prior to testing or treating phosphates. Chlorine must be under 5 ppm before testing phosphates.

Dosage Chart: Phosphate reduction varies based on phosphate concentrations. Recommendations are for estimation purposes only. Based on lab test, results may vary.

PPB	10,000 gal	20,000 gal	50,000 gal	100,000 gal	200,000 gal	300,000 gal
1,000	2 fl oz	4 fl oz	10 fl oz	20 fl oz	40 fl oz	60 fl oz
3,700	4 fl oz	8 fl oz	20 fl oz	40 fl oz	80 fl oz	120 fl oz
5,100	8 fl oz	16 fl oz	40 fl oz	80 fl oz	160 fl oz	240 fl oz

DANGER

Harmful if swallowed.
Causes severe skin burns and eye damage.
May cause respiratory irritation.

PRECAUTIONARY STATEMENT

Wash thoroughly after handling. Do not eat, drink or smoke when using this product. Wear protective gloves/protective clothing/eye protection/face protection. Do not breathe mist or vapor. Use only outdoors or in a well-ventilated area.

IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. **IF ON SKIN (or hair):** Take off immediately all contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse. **IF INHALED:** Remove person to fresh air and keep comfortable for breathing.
