

Directions for use:

Standard Weekly Dosage Rate: (No premixing required.)

1 oz per 7000 gallons of pool water.

Cloudy Water Dosage Rate: (No premixing required) (High bather loads, etc):

1 oz per 5000 gallons.

Apply PRO SERIES **Natural Clarifier** at recommended dosage rate across pool water surface, concentrating on deep water areas. Run filter system continuously for at least six hours after application.

For best results feed small amounts multiple times per day with Natural Chemistry's Automatic Dosage Dispenser. Product can also be manually applied directly to pool.
