

Builder Spec Sheet - Color Light Streams

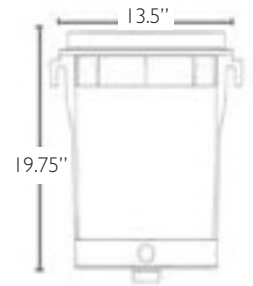

Laminars are more dramatic when the laminars are placed with the water flow aimed towards the main viewing area.

LAMINAR

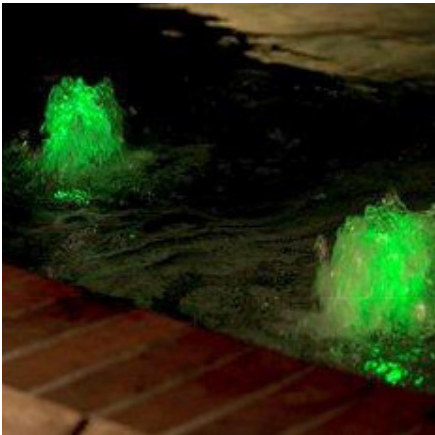

- 6 vibrant colors: white, blue, green, red, amber, purple
- Color change mode and disco effect
- 5 watt each
- 100' of 12V cable
- The laminars are designed for maximum range

EXAMPLE: 6' up, 6' out
5' up, 5' out
4' up, 4' out

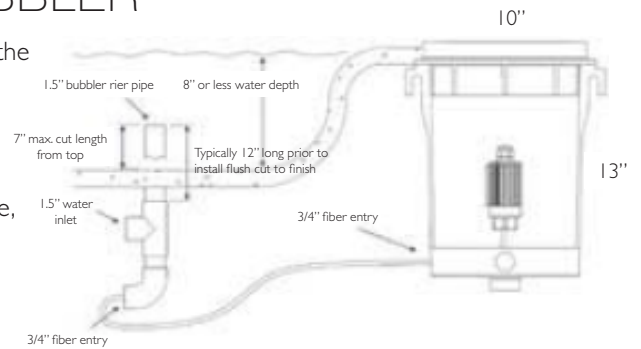

*The water supply to the laminar flow fountain should be filtered with a cartridge filter. Sand filter and DE filters will produce small particles of debris that will clog the internal filter screens of the laminar flow fountains. Must have drain installed.

MODEL NO.	DESCRIPTION
CLSSL	Color Light Streams Laminar - includes deck box & LED light driver
