

New Low Cost, High Performance Pumps for Whirlpools

WhirlMaster™

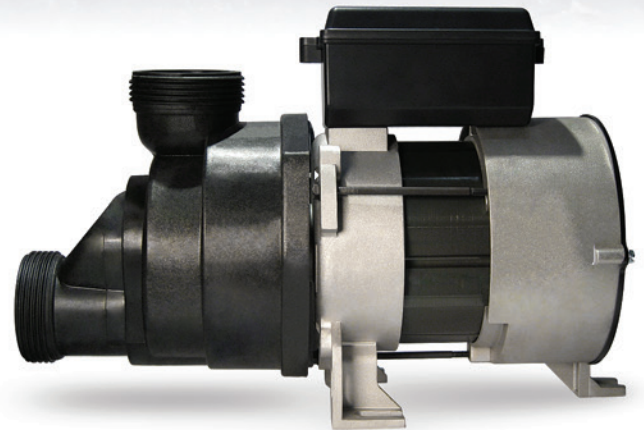

Low cost, high performance pumps for whirlpools

From the leading supplier of pumps for the Leisure Water Industry comes the new WhirlMaster™ series of low cost, high performance pumps for whirlpools.

Aqua-Flo™ by Gecko's new WhirlMaster™ provides the high performance and flow rates necessary for today's whirlpools in a very affordable package. WhirlMaster™ pumps are Aqua-Flo™ by Gecko's smallest, most inexpensive jetted bath pump offering the same quality, reliability, and service at a greatly reduced cost. The low profile compact design of the WhirlMaster™ is light weight and ideal for shallow tubs with limited space applications. Its quick release compression fittings allow for ease of installation and maintenance. WhirlMaster™ pumps provide 100% drainage.

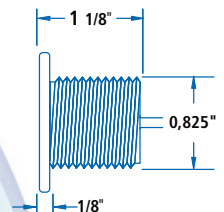

When you select Aqua-Flo™ by Gecko pumps, you are choosing maximum hydrotherapy performance, energy efficiency, innovative technology and exceptional quality and reliability. This is all part of our commitment to total customer satisfaction.
