WITHOUT HOSES, BOOSTER PUMPS OR FILTER SYSTEMS.

The Aquabot Classic Junior is designed to clean residential In-Ground Pools of all sizes and surfaces. The Classic Junior uses AquaLogic to intelligently clean the pool floor and partial walls of your pool.

The Classic Junior is equipped with an independent drive and pump motor that runs separately from your main pool filter, No hoses, booster pumps or separate filter systems.

Additionally, the Classic Junior comes standard with the largest capacity fine filter bag on the market which can capture debris as small as 2 microns. It all adds up to Fewer Chemicals and a Healthier Clean.

KEY FEATURES

- Cleans Pool Floor and Partial Wall
- Extra Long 50' Cable
- Programmable for External Timer*

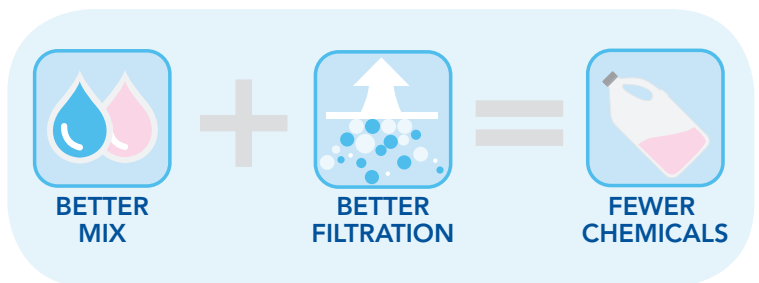

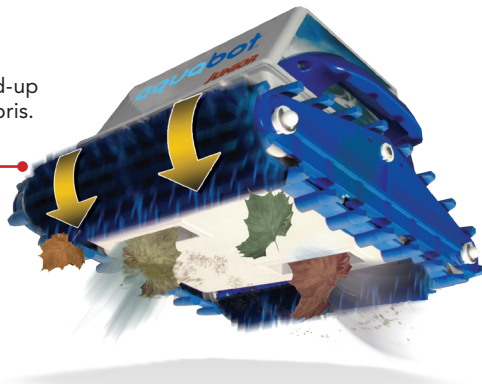

FEWER CHEMICALS AND A HEALTHIER CLEAN.
