LED BUBBLER FOUNTAIN ACCESSORIES

NEW from CMP: now the popular Brilliant Wonders Bubbler can be used to create exciting LED fountain effects. Choose from three water fountain features that can be adjusted for a perfect fit on any pool or water display.

WATER COLUMN

Create a frothy vertical column of water that can be placed above or below the water's surface for different effects.

THREE-TIER

A classic three-tier fountain effect that makes a perfect pool centerpiece with LED light and soothing sound.

WATER BALL

The water ball is a relaxing effect that reflects LED light beautifully and can be "fine-tune" adjusted right at the nozzle.
