3) Secure the rails in place using the supplied locking "D" pins.

Assembly Instructions

4) Adjust the leg height of the platform by simply pulling the locking "D" pins, adjusting the legs to the desired height and reinserting the locking "D" pins.

5) If installing more than one platform together, you will need to attach the connectors at the base of the platform.

6) Place platform into water; if using multiple units, secure them together in the water. The platform is now ready to use.
