NATURAL WONDERS™ LAMINAR DECK JET

The Natural Wonders™ Laminar Deck Jet is a precision engineered water feature, designed for high performance and ease of service. A laminar creates a large, smooth rod of water as opposed to the more playful stream of a standard deck jet.

The Laminar Deck Jet has been carefully developed by CMP engineers to achieve a precise balance of performance and reliability. Upgrade from a standard deck jet to a premier, high end Laminar Deck Jet design.

STAINLESS STEEL PRECISION NOZZLE

A high performance stainless steel nozzle is the premier choice for quality and durability.

PREMIER FILTER MEDIA

Six layers of soft and safe filtration media that are easy to clean and inexpensive to replace. No more complicated metal screens!

TANGENTIAL FLOW ENGINEERING

Precisely engineered internal flow reduces turbulence for a glass-like laminar flow, maximizing the high-end style while minimizing water entry splash.

PRODUCT FEATURES

- Durable Stainless Steel Nozzle
- Easy to Install, Clean and Service
- Flush Install Deck Cover in Three Color Options
- Install in Pool Deck or Landscaping Areas
- PATENT PENDING Design

8.5" LAMINAR PERFORMANCE GUIDE
