

IT'S LIKE BOTTLED WATER

FROM YOUR WELL

Aquaclipse™ Next Generation Corona Discharge

**Eliminates Chlorine in the
Sanitization of Source Water**

Treats up to 5,000 Gallons/Day

Improves Water Quality & Clarity

**Oxidizes Organics That Affect
Taste & Color (Including Hydrogen
Sulfide)**

**Enables Filtering or Settling Out
of Hydrogen Sulfide, Manganese,
Copper, Zinc and Iron**

DEL ozone™
advanced sanitation solutions

aquaCLIPSE

Next Generation Corona Discharge

The technology of choice among bottled water companies worldwide, ozone provides powerful disinfection for drinking water while removing unpleasant tastes and odors.

Once an exclusive to pools and spas, DEL Ozone APG™ technology is now available for well water. This innovative, reliable, high-output corona discharge ozone unit is easy to install on new, existing or multiple atmospheric tanks and there's no plumbing required.

With the Aquaclipse™ you'll enjoy refreshing, crystal clear water that's free of chlorine, chemical byproducts and chemical residue.

DEL Ozone systems have been tested by NSF and proven to kill up to 99.99% of microorganisms found in water including *E. coli*, *Giardia* and *Cryptosporidium*. Ozone is an EPA recognized antimicrobial and is EPA Disinfection By-Product Rule Compliant.

Specifications	Aquaclipse
Dimensions	16"H x 15"W x 7"D
Material	Weather Resistant Plastic
Access	Latch
Mounting	Post or Wall Mountable
Weight	~25lbs.
Power (Max)	Model ZO-400: 120V, 60Hz, 2A Model ZO-400-25: 240V, 50Hz, 1A
Electrical Connection	8ft cord with Nema 5-15 plug (120V) or Flying Leads (230V)
Temperature	Min: 30°F Max: 100°F
Air Flow @ Head	21scfh @ 2ft
Max Head	20ft
Controls	Main Power Switch; 24hr Timing
Parts Bag Supplied	30ft Tubing Dispersion Stone Manual Check Valve
