Simple Automation for easy, confident pool care.

With the right information, every pool can work better, at lower cost and with fewer maintenance issues. The new IntelliConnect™ Control and Monitoring System gives pool owners system information for added convenience and control.

CONFIDENCE THAT A POOL IS ALWAYS READY TO ENJOY

IntelliConnect provides real-time information on the status of the filtration system and other pool equipment. Pool owners can command the system to work a little harder for extra filtration after a storm or dial in a clean-up period after a pool party.

CONTROL AND MONITOR UP TO FOUR POOL DEVICES

IntelliConnect enables two smart connections to any of these Pentair devices: IntelliFlo® or IntelliPro® Pumps and IntelliChlor® or iChlor® Sanitizers. Plus, it allows for two relay connections to equipment like pool or landscape lights, pool cleaner booster pumps, or single-speed pumps including competitive models.

EFFORTLESSLY SCHEDULE IMPORTANT TASKS

With IntelliConnect, pool owners can schedule the system for automatic operation of connected equipment. Additionally, you can make changes remotely to suit your schedule.

INTERFACES PERFECTLY WITH INTELLIFLO AND INTELLIPRO PUMPS

IntelliConnect takes full advantage of the features of these remarkable, energy-saving pumps through a smart connection.

Choose up to a total of four connected devices, with two smart and two on/off relay connections.

Convenient smartphone control from up close or anywhere in the world.

To operate the IntelliConnect system, pool owners use a powerful, intuitive app. All scheduling, operation and adjustments are made using a smartphone. Maintenance and performance improvement recommendations are returned to the smartphone via in-app notifications. Plus, the app provides useful maintenance tips to guide the new or seasoned pool owner and offers information to help pool owners get more from their backyard lifestyle investment.
