### For the Installer

- 16. To access device settings select the menu icon in the top right corner. To access Installer Setup select the icon at the bottom of the screen.
- 17. Enter password: waterway2016 in the Current Password box.
- **18.** Installer Setup. Select Assign Output to configure output.

### **To Monitor Client Pool**

- 19. Start the Waterway app from the installer phone. Select the wrench icon. Select Add Device and Add Existent Device (See #5). You will need the MAC Address of the client pool. From the client mobile app select the pencil icon next to the selected device to see MAC address.
- **20.** Enter the new device's name, the MAC address and Device Owner Email. Select **Add.**
