CLOUD OUT™

Concentrated Pool Clarifier

CLOUD OUT™
ELIMINATES DEPOSITS & RESTORES CLARITY

CLOUD OUT™ is a specially blended formula that restores water clarity in all swimming pools. The fast-dissolving granules clear cloudy water fast without affecting water balance.

CLOUD OUT is compatible with all sanitizers and pool chemicals including salt, chlorine, bromine, biguanide, ozone, UV and minerals.

CLOUD OUT is especially effective in removing pink, white and clear deposits without closing the pool.

2 lb. bottle treats 12,000 gallons

CLOUD OUT — CONCENTRATED POOL CLARIFIER
- Clears cloudy water fast
- Improves filter efficiency
- No waiting to swim
- Balance neutral and compatible with all sanitizers
- Especially effective in treating clear, white and pink deposits

KEEP OUT OF REACH OF CHILDREN
Net Wt. 2 lb (906 g)

Simple Product Directions

Chlorine Pools
1. Thoroughly clean filter.
2. Add **CLOUD OUT** to swimming pool at a rate of 2 lb per 12,000 gallons, preferably near a return jet. Note: If clear or colored water deposits are present, also add one 3" chlorine tablet to each skimmer.
3. Run filtration system for at least 48 hours.
4. After 48 hours, chemically clean filter again to remove all accumulated debris.
5. Oxidize with a chlorine based shock to establish a chlorine residual after **CLOUD OUT** treatment.

Biguanide Pools
1. Thoroughly clean filter.
2. Add **CLOUD OUT** to swimming pool at a rate of 2 lb per 12,000 gallons, preferably near a return jet. Note: If clear or colored water deposits are present, also add one 3" chlorine tablet to each skimmer.
3. Run Filtration system for at least 48 hours.
4. After 48 hours, chemically clean filter again to remove all accumulated debris.
5. If water deposits persist, repeat steps 2 through 4 weekly until clear.

Note: Depending on the severity of white or pink deposits, a double dose may be needed.
In some pools, depending on accumulation of deposits, it is recommended to clean pipes between skimmer and filter to eliminate deposits.
