

*The DP is the most petite luminaire in the FX family. Milled from extra-heavy gauge copper and solid brass, the DP is engineered to last. The beam spread of the DP provides maximum projection with minimum glare. This model is perfect for coastal exposures or areas where irrigation water contains high levels of minerals or caustic salts.*

### DP: Path Light

#### *Lifetime Perfection*

We engineer fixtures from the inside out. Our use of semi precious metals, aerospace sealants, and materials is without peer. This commitment to excellence provides your client with decades of problem-free ownership.

Compare FX copper luminaires with any other, and you will find a dramatic difference in quality of materials, precision of fit and consistency of finish.

**PHOTOMETRICS:**

Spacing for minimum footcandle illumination on level ground.	Circular light pattern	Footcandles:	
		DISTANCE	DP-10
		2'	2.6
		4'	.57
		6'	.13
		8'	.05
		10'	.03
		12'	.02
		14'	0

For conversion to lumens: Multiply footcandles x 10. See FX glossary for a full description of fc and lumens.

**METALS**

	CU = Copper
	NP = Nickel Plate*

**POWDER COAT**

	WG = White Gloss
	FW = Flat White
	AL = Almond
	DG = Desert Granite
	WI = Weathered Iron
	VF = Verde Speckle
	SB = Sedona Brown
	FB = Flat Black

The DP includes choice of lamp, riser size, finish, and a Super Slot Spike.

**Note:** Only the copper portions of the path lights are powder coated. The brass pieces remain natural.
