ROCKING LOUNGE CHAIR CARE & MAINTENANCE

Your Rocking Lounge Chair requires periodic maintenance to keep it looking like new and protected from the elements.

- Wash Rocking Lounge Chair monthly or more frequently if needed using a mild soap and soft cloth. Keep cleaning materials from entering pool.
 - Do not use abrasive cleaners, bleaches, chlorines, high alkaline or strong acidic cleaners.
 - Do not use steel wool, wire brushes, metal scrapers, Scotchbrite or other abrasive sponge pads.
- Keeping your Rocking Lounge Chair's gel coat finish coated with wax - starting when the Rocking Lounge Chair is new - is the best way to prolong its life.
 - Choose a wax intended for use on gel coat surfaces. Preferably one designed for use in a Marine environment.
 - Test product on small inconspicuous section of Rocking Lounge Chair prior to full application.
 - While application instructions will vary between brands of wax, in general you apply the wax with a cloth or foam pad using circular motion. Once wax dries to a haze, buff the excess with a soft dry cloth.
 - Routine waxing (at least twice a year) will maintain the smooth reflective surface of your Rocking Lounge Chair.

TIPS FOR IN-POOL USE

Minimum sun shelf dimensions: 6' x 3'.

Set Rocking Lounge Chair carefully on your sun shelf in desired position. Push down Rocking Lounge Chair to ensure that it begins to fill with water through several inconspicuous water holes placed throughout the Rocking Lounge Chair.

Should you need to remove the Rocking Lounge Chair from the pool, it is recommended that you empty the water from the Rocking Lounge Chair first. With one person on each end of the Rocking Lounge Chair, lift the Rocking Lounge Chair above pool water level. You will see the water draining through the Fill/Drain Holes in select areas underneath the Rocking Lounge Chair. (See Figure 1 & 2).
