**TIPS FOR IN-POOL USE**

Minimum sun shelf dimensions: 6' x 3'

Set Pool Lounger carefully on your sun shelf in desired position. Push down Pool Lounger to ensure that it begins to fill with water through inconspicuous water holes placed throughout the Pool Lounger.

Should you need to remove the Pool Lounger from the pool, it is recommended that you empty the water from the Pool Lounger first. With one person on each end of the lounger, lift the Pool Lounger above pool water level. You will see the water draining through the Fill/Drain Holes in select areas underneath the Pool Lounger. (See Figure 1)
