

MAGNUS - DORADO

Hybrid

The combination of injection-molded resin and sturdy steel is the key to Magnus' endurance. High-impact resin is super tough and completely non-corrosive, so it will not chip or discolor. Additionally, steel provides unparalleled strength and durability. The Magnus will stand the test of time and still look great!

Your above ground pool has been designed to provide you with years of safe, family fun. This entails that water safety must always be taken into account. When used incorrectly, your above ground swimming pool can be dangerous; above ground pools are shallow, and this makes diving and jumping unsafe. To ensure your above ground pool is used safely, you must observe the safety precautions that are provided to you when you purchase an above ground pool and conform to all local regulations.
