

PRETIUM GLX - DUNE

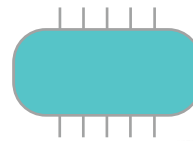

Steel

The steel structure of the Pretium GLX is extremely durable, thanks to a variety of protective finishes. These finishes provide resistance to corrosion to ensure a long, happy life for your pool. The Channel Lok II oval system was engineered to require fewer buttresses, without compromising the strength and reliability of this pool. It's also simple to assemble!

Your above ground pool has been designed to provide you with years of safe, family fun. This entails that water safety must always be taken into account. When used incorrectly, your above ground swimming pool can be dangerous; above ground pools are shallow, and this makes diving and jumping unsafe. To ensure your above ground pool is used safely, you must observe the safety precautions that are provided to you when you purchase an above ground pool and conform to all local regulations.
