# HYDROBOOST™

BOOSTER PUMP

## Give good times an extra boost.

When the giggles and the smiles are flowing fast, it's good to know your pool has the flow and PSI-popping power to keep up. Without putting extra pressure on your budget.

# WHY CHOOSE HYDROBOOST™ BOOSTER PUMP?

## 1 A CLEANER CLEAN

Your pressure side cleaner works on a pressure basis: The stronger the flow, the more dirt and debris you can wave buh-bye to.

## 2 MORE FLOW IS MORE EVERYTHING ELSE

There's only so much pressure a pool pump can provide. A cleaner with a dedicated booster pump maximizes the performance of every other individual component because it frees up more pressure to go around.

## 3 PUMP PALPITATIONS

Cleaning tools draw a lot of pressure, especially in picking up and holding leaves and other large debris, and without a booster, your main pump could work overtime—taxing its motor and driving up energy costs.

# WHY CHOOSE HYDROBOOST IT'S ALL ABOUT THE PSI

## P ROVEN RELIABLE

We've tested HydroBoost against motor burnout to the highest standards and upgraded it with a Totally Enclosed, Fan-Cooled (TEFC) Motor—so you can give your confidence a boost too.

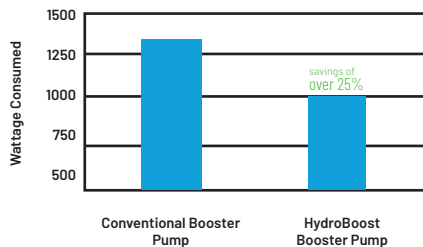

## S IMPLY SMARTER

Whisper-quiet operation 1" fittings to support a better flow for energy efficiency are just a couple of the intelligent features—and its small footprint made it smart enough to earn the EPA's ENERGY STAR® certification.

**Booster pumps enhance your pool's overall performance, and HydroBoost goes to new levels of reliability and energy efficiency.**

## I NSTALLATION'S A SNAP

HydroBoost is easy to handle and plumb, with a larger wiring compartment for uncomplicated access and a 1/3 more compact size to make fitting a shoe-in.

HydroBoost Booster Pumps have earned the Eco Select® brand distinction as one of the greenest and most efficient choices from Pentair.

## TRADEGRADE

The TradeGrade family of products is exclusively made for and sold by the world's most demanding pool professionals.
