

# Build a Pool for the Kid in You!

## WHEN EXERCISE IS FUN, STAYING FIT IS EASY

Remember that feeling when you were a kid? Exercise on a summer's day simply meant splashing around in the pool. Endless Pools is getting back to basics, putting grown-up workouts into your cool and refreshing backyard pool.

The Hydrostride™ underwater treadmill lets you walk, run, or jog in an environment like no other. Its cutting-edge technology reinvigorates both your pool and your home fitness routine. You'll get a better workout with 360° resistance, none of the stressful impact of running on dry land, and less day-after soreness.

The Hydrostride is ideal for all of your fitness and wellness goals:

- Weight loss
- Low-impact exercise you won't age out of
- Cross-training
- Physical therapy
- Or just a fun change of pace!

Long available exclusively in Endless Pools compact pools and spas, our innovative, versatile underwater treadmill is now available through exclusive pool builders only. Make a heart-healthy, long-lasting investment in your home, and put the Hydrostride treadmill in your backyard pool.

## GET THE LAZY RIVER BUNDLE

Add the Endless Pools Fastlane® Pro current system to your backyard pool to enjoy uninterrupted swims or a pool-wide 'lazy river.' Pair it with the Hydrostride treadmill, and you'll get added resistance for a unique challenge with every workout!

The Hydrostride Underwater Treadmill is available only for new pool construction.
