UTILITY

Unexpected water on the jobsite or in a basement? Move it from point A to point B easily with a Little Giant utility pump. Designed for extreme portability and lightweight enough to keep on hand for unexpected jobs, these small but mighty pumps offer convenient and efficient temporary clear water removal from basements, crawlspaces, loading docks – just about anywhere water can make an uninvited appearance.

TOP CONSIDERATIONS

- Temporary clear water removal
- Portable design goes where you need it

DUTY LEVEL

 HOMEOWNER/DIY

 CONTRACTOR

 COMMERCIAL

 INDUSTRIAL

5 SERIES

 CONTRACTOR

Weighing just under 8 lbs and producing 1200 gph, the 5-MSP is truly a Little Giant!

RELEVANT FEATURES

- 1/6 hp
- Cast aluminum construction for impact resistance, cooling, and reduced weight
- Removable screen for easy cleaning
- Continuous-duty rated for application flexibility
- 1" discharge and 3/4" garden hose adapter
- 1/8" pumpdown keeps cleanup time to a minimum

FL/FS SERIES

 COMMERCIAL

When you need a versatile, construction-grade utility pump, the FL/FS Series is prepared to meet your needs.

RELEVANT FEATURES

- 1/2 and 1 hp models
- Stainless steel construction and screen
- Continuous-duty rated for all-day and all-night use in harsh construction site conditions
- 2" discharge

SUMP

Water knows how to get in where you don't want it: from seeping into basements to finding its way into crawlspaces and elevator pits. Stay one step ahead of water damage with a Little Giant sump pump installed and ready to kick on when needed. The compact yet powerful design fits in the tight spaces that are common for sump pump installations.

TOP CONSIDERATIONS

- First line of defense against water damage in homes and businesses
- Permanent clear water removal

DUTY LEVEL

 COMMERCIAL

 INDUSTRIAL

5.5 ASPA SERIES

 BUILDER

Have peace of mind with your lighter-duty sump applications.

RELEVANT FEATURES

- Lightweight cast aluminum entry-level sump pump
- Powerful and efficient 1/4 hp PSC motor ensures your basement will be protected
- Top-intake helps prevent debris entering the pump

6/8 SERIES

 CONTRACTOR

You can't install a sump pump if it won't fit, and you can't sacrifice performance.

RELEVANT FEATURES

- 1/3 and 4/10 hp models
- Cast iron construction
- Continuous-duty rated
- Compact design with integrated diaphragm switch option
- Fits and operates in a 5 gallon bucket!

SUMP/EFFLUENT

Striking the balance between clear water removal and light graywater removal, a Little Giant sump/effluent pump does a little bit of everything: keeping water out of basements while acting as a strong backup for septic pumps. These hybrid units can also be used to pump to a leach field or aid with drainage when gravity feed is not possible.

TOP CONSIDERATIONS

- Permanent first line of defense against water damage in homes and businesses
- Clear or gray wastewater removal
- Small solids handling up to 1/2"

 INDUSTRIAL

6EC/10EC SERIES

 CONTRACTOR

When you need the best of both worlds, this family of hybrids has the teeth to handle your most demanding sump or light effluent application.

RELEVANT FEATURES

- 1/3 or 1/2 hp high-speed PSC motor
- Multiple switch designs; integrated snap action float option for simple installation in small diameter basins
- 1/2" solids handling
- Outperforms sump pumps of larger horsepower
- Polypropylene base models give you the choice to reduce weight
- Easier cleaning with removable intake screen

EFFLUENT

Installing a septic system? Make sure you're using a pump that is up to the task for the long haul. Little Giant effluent pumps are built for reliability and engineered to be used with confidence, with installation alarms, a three-year warranty and beefy cast iron construction.

TOP CONSIDERATIONS

- Built for permanent and continual use
- Reliably lift septic and gray wastewater to leach fields
- Solids handling up to 3/4"

INDUSTRIAL

9EC/9ECH/10ECH

CONTRACTOR

Little Giant's core effluent pumps are giant on performance and reliability. Anything less is unacceptable.

RELEVANT FEATURES

- 4/10 or 1/2 hp high-speed PSC motor for performance and efficiency
- Multiple switch designs; integrated snap action float option for simple installation in small diameter basins

9EC/9ECH

12E SERIES

CONTRACTOR

When performance and efficiency is paramount, the 12E's high-flow cloverleaf intake design doesn't rely on luck.

RELEVANT FEATURES

- Unique cloverleaf intake increases flowrate and performance while handling 3/4" solids
- High-efficiency PSC motor keeps your electricity bill down
- Cast iron non-clog (semi-open) impeller handles more abrasive solids better over time

WS SERIES

COMMERCIAL

When you need heavy materials throughout and still need to be heavy in options, the WS Effluent series brings it all.

RELEVANT FEATURES

- 1/3, 1/2 and 1 hp options designed especially for high torque with multiple head and flow options
- Cast iron non-clog (semi-open) impeller handles more abrasive solids better over time
- Flange discharge connection allows for installation flexibility

14EH/16EH/20E

COMMERCIAL

Commercial effluent removal is serious business. Having a pump built for the challenge is the only serious answer.

RELEVANT FEATURES

- 1/2, 1, or 2 hp options for those challenging high-flow and high-head applications
- Cast iron impeller handles more abrasive solids better over time
- Commercial-grade components and flange discharge connection

20E

SEWAGE

Sewage is a dirty business – but Little Giant sewage pumps are up to your toughest raw sewage handling demands. With solid cast-iron construction, contractor or commercial grade performance, and clog-resistant easy-to-service features, they get the job done.

TOP CONSIDERATIONS

- Built for permanent and continual use
- Basement or below-grade living area sewage lift stations
- Low head/high-flow wastewater removal or transfer
- Solids handling up to 2"

INDUSTRIAL

9SC/10SC SERIES

CONTRACTOR

Little Giant's core sewage pumps are giant on performance and reliability. Anything less is unacceptable.

RELEVANT FEATURES

- 4/10 or 1/2 hp
- High-speed PSC motor
- New standard high-flow vortex impeller design reduces clogging from wipes and stringy solids
- Multiple switch designs; integrated snap action float option for simple installation in small diameter basins

WS SERIES

COMMERCIAL

When you need heavy materials throughout and still need to be heavy in options, the WS Effluent series brings it all.

RELEVANT FEATURES

- 1/2 and 1 hp options designed especially for high torque with multiple head and flow options
- Cast iron non-clog (semi-open) impeller handles more abrasive solids better over time
- Flange discharge connection allows for installation flexibility

14S/16S/18S/20S

COMMERCIAL

Commercial sewage removal is serious business. Having a pump built for the challenge is the only serious answer.

RELEVANT FEATURES

- 1/2, 1, 1-1/2 or 2 hp options
- 2" or 3" flanged discharge options
- High-flow and head non-clog (semi-open) cast iron impeller handles more abrasive solids over time

GRINDER

Got an effluent or sewage pump that's struggling with clogs or binding? A Little Giant grinder pump gives your system a welcome upgrade, grinding solids into a slurry and moving them through a system with ease.

TOP CONSIDERATIONS

- Built for permanent and continual use
- Ideal for use as a new or drop-in replacement pump
- High head sewage or effluent removal for clog-prone applications

 INDUSTRIAL

16G SERIES

 CONTRACTOR

When you need to take your sewage removal to the next level to be truly worry-free, let Little Giant handle the daily grind so you don't have to.

RELEVANT FEATURES

- 1 hp heavy-duty class F motor with superior grinding capability
- Prevent flushables and other debris from causing clogs
- Comes standard with:
 - Silicone carbide mechanical seal for long life
 - Replaceable power cord for easy repair and reduced wiring time for pump replacement
 - Non-skid adjustable legs reduces noise and vibration
 - 1-1/4" or 2" dual discharge options make it easy to directly replace a sewage ejector pump

SPK SERIES

 CONTRACTOR

Choose the 6-CIA or the 8-CIA sump pump with SPK Series package for a drop-in sump pit solution.

RELEVANT FEATURES

- Pumps include extension feet to keep off bottom of the basin and reduce ingestion of construction debris
- 18"x22" polypropylene basin with 4" Adapt-A-Flex grommet
- Pre-packaged system includes check valve and NPT threaded 1-1/2" discharge pipe for a quick install
- Bolt-on polypropylene cover for simple and secure installation

PIT+PLUS JR & SR

 CONTRACTOR

Choose from preassembled sewage pump or grinder pump options with a compact (Jr) or larger (Sr) basin.

RELEVANT FEATURES

- 4/10 hp or 1/2 hp sewage pump or 1 hp grinder pump options available
- Roto-molded polyethylene basin with molded torque stops and anti-flotation collar to secure pump
- Separate and easy access to the pump or switches for quick maintenance or replacement
- JR basin size: 24" x 24" (61 cm x 61 cm)
- SR basin size: 20" x 30" (51 cm x 76 cm)

80 YEARS OF SOLVING PUMPING CHALLENGES

You don't run without teamwork – and neither do we. Our goal is to build not only reliable, trustworthy products, but to back them with the people, resources and support you need to get your job done and keep your business flowing: we're here for you, every step of the way.

TESTED IN OUR LAB; PROVEN IN YOURS

Every Little Giant Sump, Sewage, Effluent, Utility, and Grinder Pump is wet-tested before it leaves the factory. And every pump has been engineered for long-term performance, dependability, and reliability. Investing this extra time and resources is an essential step in providing quality products you can count on. Since 1964, we've tested every single pump in water to confirm everything is operating perfectly before we say the job is done. We take pride in our work - just like you.

FLOW OF RELIABILITY

Little Giant products are supported by standard limited warranties. For availability, warranty, and pricing, contact your local Little Giant sales representative or distributor.

SUPERIOR TECHNICAL KNOW-HOW

Help is a phone call away. With decades of collective industry experience, our team is made up of real people, offering real answers, in real time.

For answers to your water systems questions, contact our technical support team by phone at **1-800-348-2420** or email at techsupport@fele.com.

Little Giant started with a need to solve a problem. In 1926, plumber R.M. “Doc” Wolfe had an issue with pumps failing at a frustrating rate; so he came up with an idea and enlisted the help of an inventor named Harry Goodman to create the world’s first evaporative pump. In 1941, the Little Giant Vaporizer was born – and so was the Little Giant brand. The innovative, patented pump became the cornerstone of Little Giant and laid the foundation for a company dedicated to solving the pumping problems plumbers and HVAC professionals face every day.
