

ADVANCED PRO

The **ADVANCED PRO 100, 150, and 250** open the path to a whole new world, where efficiency meets style and elegance, where size gives way to precision and intelligence.

RESPONSIVE AND INTUITIVE

ADVANCED PRO LINE is intuitive and easy to use. At the touch of a button it gets to work.

Ergonomic and clever.

BEAUTIFULLY MADE AND ELEGANT

Although **ADVANCED PRO LINE** is very small, its ultra-modern design allows it to clean faster and more efficiently while consuming less energy.

PRACTICAL AND CLEVERLY DESIGNED

ADVANCED PRO LINE is simple, clean and pleasant to use. An indicator light warns you when the filter is full and needs to be emptied.

At the touch of a button, the filter is freed and can be pulled out from above and cleaned, all without getting your hands dirty. Well done **ADVANCED PRO LINE!**

DOUBLE FILTRATION

ADVANCED PRO LINE features two filters, one fitted into the other. This dual filtration system traps even the tiniest particles and leaves the water crystal clear.

FEATHER WEIGHT!

ADVANCED PRO LINE is half as heavy as most conventional robotic cleaners. Its rapid drain system makes it wonderfully easy to remove from the pool.

SUREFOOTED ON EVERY TYPE OF SURFACE

Floor, walls, waterline... with its on-board technology, **ADVANCED PRO** LINE clings to even the steepest slopes, whatever the waterproofing finish.

ADVANCED PRO LINE navigates with ease and adapts to every configuration.

Its optimised cleaning path ensures full coverage, irrespective of the shape of the pool.

HERITAGE ADVANCED PRO | 3

A WHOLE LOT OF TECHNOLOGY PACKED INTO LESS THAN 13 LBS

PLANETARY GEAR TECHNOLOGY

ADVANCED PRO LINE robots are equipped with two stage planetary gear technology, a drive system that offers greater efficiency and better precision; combined with two drive motors and a powerful pump, **ADVANCED PRO** LINE is one of the most reliable robotic cleaners on the market.

This system is the ideal solution for fast, optimised travel, unmatched cleaning and unrivalled reliability.

ENERGY EFFICIENT

With their rapid and logical travel mode and powerful suction, **ADVANCED PRO** LINE robotic cleaners work fast. Cleaning cycles are short, consume less energy, and yield a flawless result.

IMPECCABLE CLEANING

This robotic cleaner unites every advantage: one of the best filtration performances on the market, unbeatable suction power, exceptional agility over every surface, on-board intelligence, robust, outstanding reliability. It is the first choice of professionals and discerning pool owners.

COMPACT, HYDRODYNAMIC AND ENERGY EFFICIENT

With its very low lines, very compact design, BWT D600 APP easily manoeuvres through tight spaces and navigates around return fittings and objects fallen to the pool floor. Its hydrodynamic design reduces drag so less power is needed to drive it through the water. A real energy saving.

OPTIMISED SCRUBBING ACTION

This robotic cleaner features 4 brushes made of a PVA specially formulated to be compatible with all pool surface finishes. Along with the additional vibrating PVC brush, they provide impeccable cleaning of your pool.

FAST, INTELLIGENT CLEANING

The BWT D600 App robotic cleaner moves quickly and cleans fast. They feature the smart navigation system. Comprised of a gyroscope and an algorithm, the navigation system scans and detects obstacles, then computes the cleaning path. The cleaning cycle is shorter and the entire surface to be cleaned is covered. The pool floor, walls and water line are perfectly clean with a minimum number of passes and in record time.

CLEVER HANDLE DESIGN

The handle self adjusts as the D600 APP climbs the pool wall, settling into a diagonal position to cause the robot to take an alternate route as it descends. Coverage of the walls is optimised and the cleaning time is reduced.

COMPATIBLE WITH ALL POOLS

The BWT D600 APP is compatible with pools of every shape and with any surface finish. The D600 APP navigates and cleans shallow slopes; should the robotic cleaner exit the water, it automatically detects this and returns into the pool.

CLEANS EVERY NOOK AND CRANNY

Pool floor, walls and water line: the D600 APP cleans every surface of your pool.

CONNECTED

The **ADVANCED PRO P600 APP** model features a Bluetooth module. Using the BWT RC app available for download free of charge from the Applestore or Playstore, control is at your finger tips! You can start and stop your D600 APP remotely, and navigate freely to direct your pool cleaner to problem areas.

BREEZER TECHNOLOGY & ULTIMATE POWER

BWT robotic pool cleaners are equipped with Breezer technology, an efficient and hard-wearing, yet easy to repair, gear transmission system, paired with two drive motors and a powerful pump to collect debris. The BWT D600 APP is one of the most reliable pool cleaning robots on the market.

This is the Ultimate Power system, the ideal solution for fast, optimised travel, unrivalled reliability, and unmatched cleaning.
