

EMERALD LINE

The efficiency
of Aquabot keeps
your pool beautiful
and clean

POWERFUL, EFFICIENT, ERGONOMIC
EASY TO USE AND MAINTAIN

An Aquabot robotic pool cleaner, superior quality for a crystal-clear pool

The Emerald line of Aquabot robotic pool cleaners combines performance, beauty and functionality, all at a very attractive price. Above all, they have one feature that sets them apart: ultra fine filtration.

Floor, walls and water line

You want a robot that cleans the pool floor, walls and water line? The Aquabot Emerald 200 model is made for you.

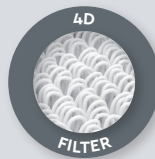

Efficient travel

With four large wheels, Aquabot robotic cleaners cope with any obstacles, moving easily between toys left on the pool floor by your children. Simple and robust travel, perfect for a family pool.

Adjustable nozzles

Aquabot robotic cleaners feature the most powerful suction of any robot in the market. Suction can be increased up to twofold, thanks to precise adjustment of the nozzles.

Among the finest filtration performances in the market

Aquabot robotic pool cleaners are fitted with 4D filter that feature loops that capture the smallest micro-particles. This means that Aquabot can guarantee one of the finest filtration performances in the market.

4 brush wheels and additional rotating brush

The 4 wheel brushes dislodge desposit and leave the surface perfectly clean. The additional rotating brush ensures impeccable cleaning of the pool floor. "Aquabot clean!"

Ideal for
above-ground
and in-
ground pools

• **Fast cleaning**

Length of the cleaning cycle: two hours.

• **Smart Navigation**

Aquabot robots move quickly and clean fast. They feature the intelligent and exclusive **Smart Navigation System**. Comprised of a gyroscope and an algorithm, the navigation system scans and detects obstacles, and then computes the cleaning path. The cleaning cycles are shorter and the entire surface to be cleaned is covered. The pool floor, walls and water lines are perfectly clean with minimum passes, and in record time. "Aquabot fast!"

Technical Specifications

Max pool area	646 Sq. Ft.
Cleaning cycle duration	2 hours
Cleaning type	Floor, wall and waterline
Brush type	High Corrugated PVA + Additional Rotating Brush
Filter type	4D Hyperfine Microfiber
Full filter indicator	No
Navigation system	Yes
Particle retention	Ultrafine
Swivel	Yes
Drive system	Ultimate power
Remote control	No
Cable length	52 ft
Adjustable nozzles	Yes
Dimensions (L x W x H)	(21.3"x19.7"x14.6")
Weight	17.6 lbs
Storage accessory	No
Warranty	2 years

A world made for you!

EXCELLENCE, INTELLIGENCE, INNOVATION

The BWT world is made for you, and its robotic pool cleaners are designed with you in mind.

Don't hesitate, step into an exceptional world.
