INFINITE WATER COLORS LIGHTS

ENDLESS COLORS.

Why be limited to a list of primary colors when a full palette of colors is at your disposal. Whether it's red, blue, coral or chartreuse — Jandy® Infinite WaterColors™ Lights offer unlimited shades to choose from along with ten pre-set colors and five light shows.

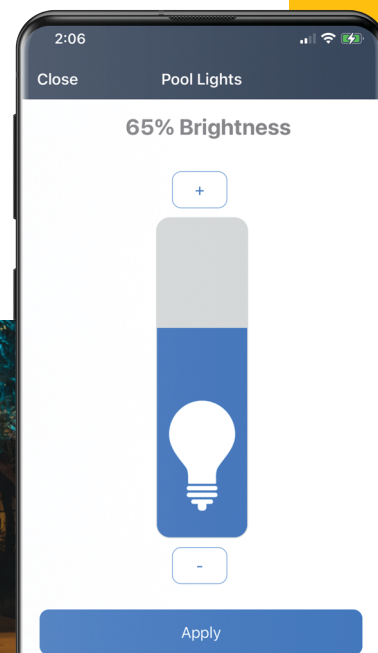

COLOR BY NUMBER

Create your own color schemes with zoning technology that enables you to group your lights into four designated zones which can be illuminated by different colors.

MOOD LIGHTING

With Infinite WaterColors you have infinite control of how vibrant your colors shine. Advanced dimming capabilities allow you to tone down the lighting or boost the brightness without sacrificing visibility.

CONVENIENT COLOR CONTROL

Alexa, turn my spa lights yellow

JUST SAY THE WORD

With a native Amazon® Alexa® skill you can have complete integration with all your smart home devices through Alexa. Make them part of a group or routine or schedule them completely through Alexa.

ANY COLOR. ANYTIME. ANYWHERE.

You're in complete control wherever you go. Designed to work with Jandy® Aqualink® RS automation systems, Infinite WaterColors Lights offer convenient operation regardless of if you're at your pool or away from your home.

POOL PRO APPROVED

EASY INSTALLATION & OPERATION

Free up automation auxiliary relays by connecting the Light Controller via RS-485 to Aqualink® RS.

COLOR SELECTION WITHOUT THE CYCLE

No more cycling through color selections — instantly change from one color to the next.

A PERFECT MATCH

Designed to work with the Jandy TruFit™ Bubbler (sold separately).

NO TRANSFORMER NECESSARY

Light controller has a built-in 300W transformer and allows for grouping of lights into four zones.
