INFINITE
WATERCOLORS™

Put a personal touch on pool design with limitless color lighting options.

Your color options are endless. Jandy® Infinite WaterColors™ Nicheless Lights let you instantly select any color without having to cycle through, and the options don't end there...

Pick Your Palette

Choose from red, blue, green and any hue in-between

65% Brightness

Mood Lighting

Advanced dimming capabilities allow you to tone down vibrancy without sacrificing visibility

Any Color. Anytime. Anywhere.

Requires Jandy AquaLink® RS automation systems for convenient operation anytime, anywhere using the iAquaLink® app.

Alexa, turn my spa lights Yellow

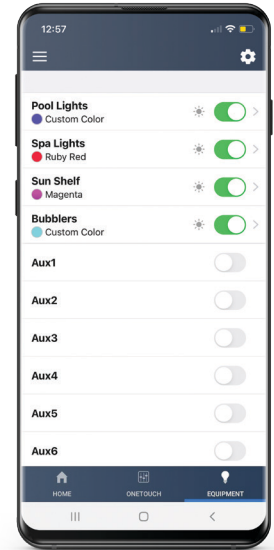

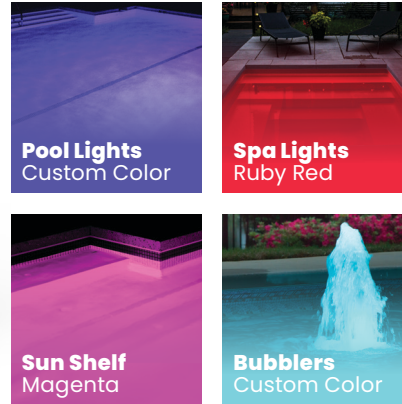

Just Say the Word

Native Amazon® Alexa® skill enables complete integration with all your smart home devices

Color By Numbers

Custom zoning technology enables you to group lights to illuminate different colors in four different areas of your pool

Cool Operation

HydroCool® Technology extends the life of the light ensuring lights run cooler and last longer*

*Based on internal testing

Color Selection Without the Cycle

No more cycling — change colors quickly with the tap of a finger or Alexa voice control

A Perfect Match

For the ultimate effect, Infinite WaterColors Nicheless LED lights are designed to work with the TruFit™ Bubbler (sold separately)
