

PURESTAR™

CORONA DISCHARGE OZONE GENERATOR

WHY CHOOSE PURESTAR?

Model # PS10

A unique in-line injection system efficiently disperses ozone with minimal system pressure, reducing energy costs.

An all-in-one ozone solution that requires less than 18" of plumbing, for retrofit or new construction.

Delivers up to 1 gram of ozone per hour, suitable for treating pools up to 40,000 gallons.

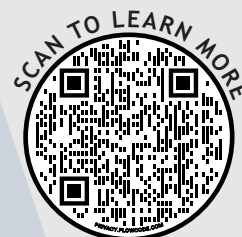

The PureStar Ozone is easy to install and maintain. Flow driven, internal bypass, self cleaning, and is variable speed pump compatible

WHAT ARE THE BENEFITS OF OZONE?

The advantages of utilizing ozone in swimming pools are widely recognized within the aquatics industry. Ozone effectively eradicates all known microorganisms, ensuring a safer and healthier swimming environment. As a rapid-acting oxidizer, it can quickly act upon contaminants that chlorine or bromine cannot. Notably, ozone contributes to reduced chlorine consumption by swiftly oxidizing impurities, allowing more chlorine to remain in the pool for optimal use. The resulting pristine water is gentler on swimmers' skin and eyes, while also providing a visually appealing "sparkling" effect.
