BADU[®] Block Multi Series

Normblock Multi Series

All Plastic Commercial Pool Pump 1750 RPM

Speck Pumps Multi Series

Durable, Serviceable, Fast.

They say you always have to pick two between price, quality, and speed. But what if you didn't?

That's the story of Speck's Multi Series. Innovative polyurethane construction keeps prices down while maintaining quality. It's all backed by Speck's industry-best lead times.

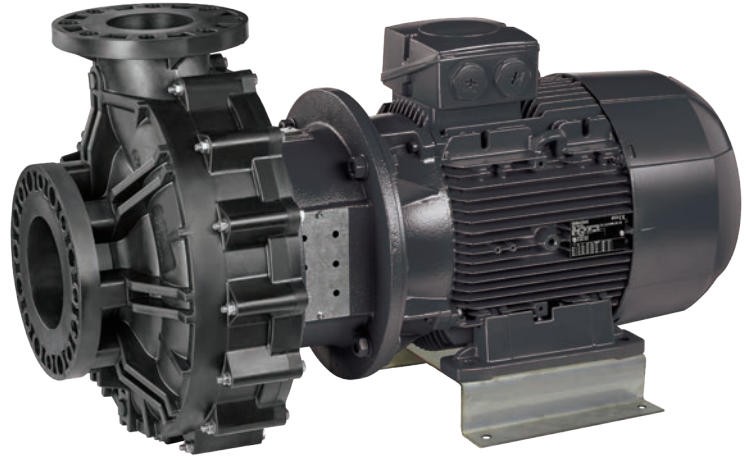

Normblock Multi Series

Our Baseline Horizontal Design

FEATURES

- Polyurethane construction at higher horsepower than any other manufacturer. No need for cast-iron or to epoxy coat.
- Flexible design for easy replacement. Available with 4", 5", 6" and 8" Suction fittings for a perfect match.
- 6" and 8" Strainer Tanks available for even the largest jobs.
- All models comes with heavy-duty TEFC motors, which due to our simple de-coupling shaft, can be easily replaced without replacing the seal.

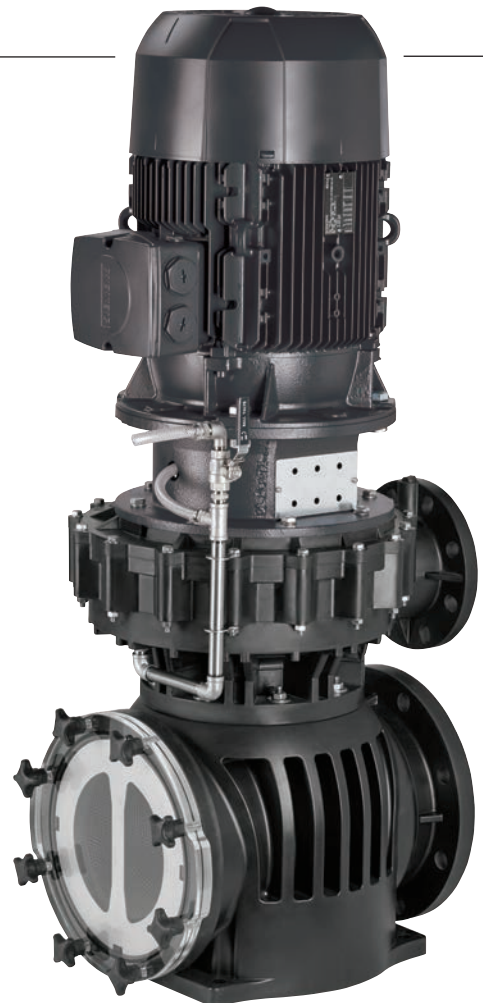

BADU Block Multi Series

Adding an Intelligent Twist to the Normblock's Versatile Design

FEATURES

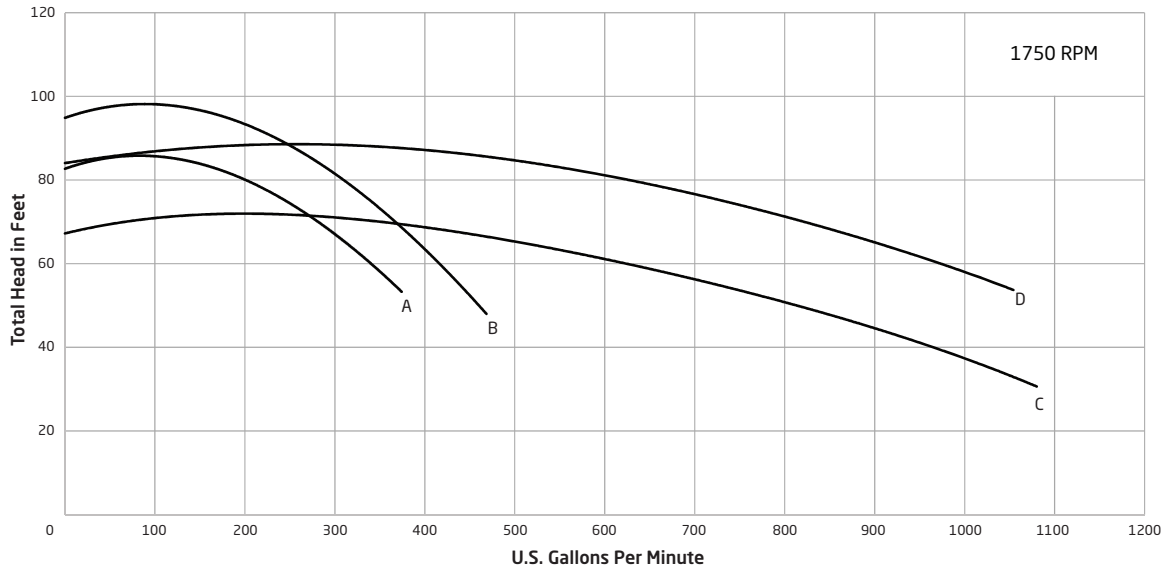

- BADU Block Multi's stand conventional wisdom on its head, literally. By orienting the pump vertically, we unlock a series of extra benefits beyond those of the Normblock.
- The immensely space-saving design allows for an up to six-fold decrease in footprint.
- Independently rotating volute delivers even more flexibility, allowing for discharge articulation in eight different directions.
- Optional VFD can be mounted directly on motor feet, and preprogrammed at the factory for plug-and-play ease of use.
