SWIMMING POOL/SPA HEAT PUMPS

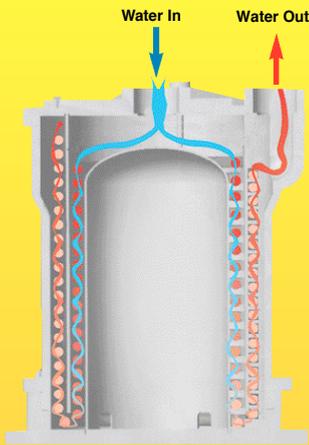

**LIFETIME  
WARRANTY**

The only patented titanium system that uses counter flow water management to maximize temperature differential and heat transfer.

 SWIMMING POOL/SPA HEAT PUMPS

- • • governs flow of water over the Titanium Heat Exchanger to provide maximum surface contact. This flow pattern increases BTU output while maintaining the highest COP.
- • • directs the flow of water and refrigerant in opposite directions. This counter flow assures maximum heat transfer throughout the loop.
- • • provides the strength and durability of titanium without sacrificing performance and efficiency.
- • • minimizes pressure loss for compatibility with virtually all hydraulic schemes without compromising heating efficiency.
- • • is easily winterized with a simple drain plug.
- • • has a lifetime warranty on the Titanium tubing.
