DIAMANTEPICCOLO® | FX LUMINAIRE®

**ULTRA-MICRO SIZE,
 HALOGEN POWER**

The DiamantePiccolo® is the most petite luminaire in the FX family. Milled from extra-heavy gauge copper and solid brass, the patent pending DP is engineered to survive.

The beam spread of the DP provides maximum projection with minimum glare.

This model is perfect for coastal exposures or areas where irrigation water contains high levels of mineral or caustic salts.

The copper will patina naturally over time and can be accelerated with solution spray. For patina formulas visit our website at: www.FXL.com/learning/patina.htm

LIFETIME PERFECTION

At FX, we engineer fixtures from the inside out. Our use of semi precious metals, aerospace sealants and materials is without peer. This commitment to excellence provides your client with decades of problem-free ownership.

Compare FX copper luminaires with any other, and you will find a dramatic difference in quality of materials, precision of fit and consistency of finish.
