SPUNTAREINTIMO® | FX LUMINAIRE®

SOFT DIFFUSE  
HALOGEN ILLUMINATION

The SpuntareIntimo® fills the niche of the occasional need for a more subtle light source.

We have engineered a white reflector to soften the lamp's output thereby allowing the designer to get the benefits of halogen long life without overpowering the space with light. The bi-pin lamp in the SpuntareIntimo® provides an even neutral color rendition.

This patent pending luminaire is an excellent choice for subtly illuminating small elements in residential courtyards or intimate seating areas. It is also a great light source for shadowing or backlighting small plant material.

When used with the clear lens positioned 8-12" from a stucco wall the SI will produce its signature elliptical scallop light pattern. This elegant technique is effective even if no plant material is in the foreground because it breaks up the static linear lines of an otherwise plain straight wall.

SIT BACK AND ENJOY

Your pleasure of outdoor living does not have to end when the sun goes down. If you want to spend time outdoors after dark just add some elegant landscape lighting. Whether you want to just relax, have a meal, or entertain, landscape lighting can help. You have invested money on that nice grill, weather-proofed furniture, and gas heaters, however your time to enjoy them doesn't have to be limited to day-light hours. Once you add lighting outdoors, it will be hard to imagine all that time you wasted indoors!

**Note: This fixture is designed for uplighting only.**
