

S200

»»» High Rate Sand Filter

For carefree swimming

A high performance totally corrosion-proof filter series that combines superior filtration with ease of operation. Designed with the pool owner in mind, the S200 filter is the reliable choice in high rate sand filtration.

FREE-FLOW PERFORMANCE

Efficient, multilateral underdrain assembly with umbrella fold, 360° slotted, self-cleaning laterals, provides totally balanced flow and easy backwashing capability. Integral top diffuser ensures even distribution of water over the top of the sand media bed. Integral molded drain plug for easy draining of tank, without the loss of sand.

EASY OPERATION

Hayward 6-Position VariFlo® control valve with easy-to-use lever-action handle lets you dial any of the valve/filter functions. Sight glass lets you see when backwash cycle is completed.

EXTREMELY DURABLE

Durable 6" threaded inspection cover provides convenient access to top of filter. Corrosion-proof, heavy-duty filter tank is injection molded of tough, durable ABS for all-weather performance. And its totally corrosion-proof base provides strong, stable support.

SPECIFICATIONS

Filter Type	High-Rate Sand: No. 20 Silica Sand (0.45 mm – 0.55 mm)
Filter Tank	Molded ABS
Underdrain	360° Slotted Self-Cleaning Laterals
Control Valve	2" or 1½" 6-Position VariFlo Valve. May also be plumbed singularly or in series with quick disconnect union couplings (less valve).
Support Base	Injection-Molded Polymer
Dimensions*	23½"W x 37"H (597 x 939.8 mm)

*Above dimensions are for filter only. Add 12" for 1 1/2" and 14" for 2" multiport valves to the width dimension.

PERFORMANCE DATA - FILTER

MODEL NUMBER	EFFECTIVE FILTRATION AREA FT. ²	DESIGN FLOW RATE* GPM	TURNOVER (IN GALLONS)	
			8 hrs.	10 hrs.
S200	2.20	44	21,120	26,400

PERFORMANCE DATA - VALVE POSITIONS

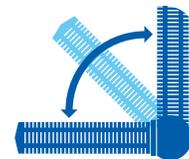

MODEL NUMBER	PIPE SIZE	FILTER	BACK-WASH	WASTE	RECIRCULATION	RINSE	CLOSED	WINTER
SP0710X32	1½"	•	•	•	•	•	•	•
SP0715X32	2"	•	•	•	•	•	•	•

VARIFLO 6-POSITION CONTROL VALVE

The easy-to-use lever action lets you "dial" any of the valve/filter functions.

PATENTED SERVICE-EASE DESIGN

Unique folding ball joint design allows lateral assembly to be easily accessed for simple servicing.
