

UPGRADES MADE EASY

Move up to AquaLink RS power with Jandy Conversion Kits. Easily convert old AquaLink, Ji Series® or Compool control systems to an attractively styled, sleek and compact AquaLink RS OneTouch or PDA wireless system.

Converting is simple and easy — no household rewiring is required. Existing power center, wire cables and valve actuators do not need to be replaced.

Take advantage of the intuitive programming of the AquaLink RS system and give Jandy Ji Series and AquaLink Power Centers the power and flexibility of state-of-the-art AquaLink RS digital technology.

Conversion Kits include the following: Wired or Wireless Controller, Power Center Bezel with Printed Circuit Board, Water Temperature Sensor and Wall Plate Adapter for certain kits.

STANDARD FEATURES

- ▶ Easier programming and control of up to 32 auxiliary functions with the OneTouch conversion or 8 auxiliary functions with the PDA, plus heater, filter and solar equipment
- ▶ An attractively styled, sleek and compact indoor control panel or wireless, handheld remote
- ▶ State-of-the art digital technology
- ▶ Simple custom software and labeling of all functions for easy understanding of your pool and spa system
- ▶ Activate multiple pieces of equipment with the OneTouch Buttons or your most popular features with the PDA Hot Keys
- ▶ Infinite program back-up during power outages
- ▶ Automatic equipment safety circuits
- ▶ Equipment service and time-out modes at the Power Center
- ▶ Built-in self-diagnostics and freeze protection
- ▶ Optional surge protection for added safety of your pool and spa equipment
