# MINERAL SPA CARE

## PATENTED MINERAL SPA DISINFECTANT

### FROG® MINERALS:

- Reduce bromine or chlorine use up to 50%\*.
- Eliminate daily dosing for less work.
- Improve water quality by:
  - Destroying bacteria for improved clarity.
  - Helping to maintain a neutral pH.
  - Reducing bromine or chlorine use for softer water.

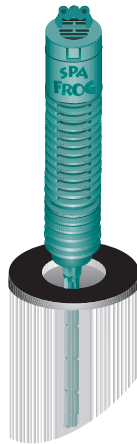

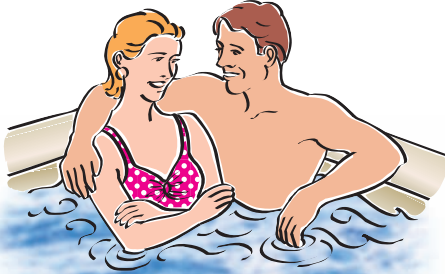

\* Compared to the minimum ANSI recommended bromine or chlorine level of 2.0 ppm in a spa.

# JUST FOR THE FEEL OF IT!

- Imagine the feeling of sparkling water caressing your skin with soft touches of warmth. Or the feel of stress melting away in the luxury of fresh, clean, invigorating water. Well, don't imagine anymore. With SPA FROG®, your spa will have the feel of a hot spring in the Rocky Mountains cascading water over your tired limbs and soothing muscles. SPA FROG®'s minerals make a difference you can feel.

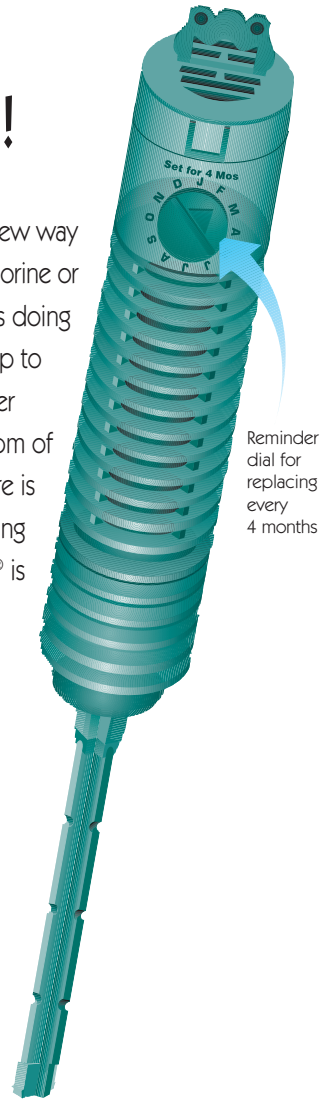

# FROG® OFFERS MORE RELAXATION!

- SPA FROG® knows your number one priority is relaxation. Its unique blend of minerals works together to make your water softer and sparkling clear. To keep you relaxing, SPA FROG® minerals destroy bacteria while neutralizing pH, and with no assembly required. By dropping it inside your filter cartridge, filter well or skimmer, SPA FROG® works with no electricity and no hassles for four full months. It even has an easy to set dial as a reminder to replace it.

\*Compared to the minimum ANSI recommended bromine or chlorine level of 2.0 ppm in a spa.

# NOW THERE'S A BETTER WAY!

- SPA FROG® is all about a new way to care for water that reduces chlorine or bromine use. In fact with minerals doing the bulk of the job you can use up to 50%\* less than standard spa water treatments. With just a low 1.0 ppm of bromine or chlorine, your spa care is complete without fading swimming suits, or smelly odors. SPA FROG® is compatible with ozonators too!

Reminder dial for replacing every 4 months

There's a more enjoyable spa waiting for you. Feel what you've been missing – SPA FROG®.
