Natural Chemistry's **Salt Water Magic** product line contains revolutionary technology, specifically engineered for pools with chlorine generators. Adding **Salt Water Magic** at system start-up and on a monthly basis throughout the season ensures the perfect pool water environment for chlorine generators and provides long term system stability. **Salt Water Magic** removes phosphates and organic contaminants from pool water. Reducing organic contaminants from pool water increases filter efficiency, reduces odors, waterline build-up and *optimizes chlorine generator performance.*

**DIRECTIONS:**

**SHAKE BOTTLE WELL BEFORE USE.**

Use entire bottle for pools up to 20,000 gallons (75,700L). With circulation pump running, add contents of 1 Liter bottle to pool skimmer. Do not backwash or clean filter for at least 48 hours. Test water and adjust according to your pool professional's recommendations. Use monthly as a maintenance program.

**New Pool Start-Up:**

**Follow pool builders start-up directions.**

Following directions for recommended amount of **Foundation**, add the required amount of mineral mix to the pool. With circulation pump running, add entire contents of Salt Water Magic Liquid (1 Liter) to pool skimmer. Do not backwash or clean filter for at least 48 hours. Test water and adjust according to your pool professional's recommendations. Use monthly as a maintenance program.

Natural Chemistry's Salt Water Magic System makes it easy to create the optimal pool water environment and it takes less than 10 minutes per month. Use our convenient Salt Water Magic **Monthly Kit** as part of your regular maintenance. Simply add the kit contents monthly if you add little or no salt to your pool throughout the season.

**TEST PHOSPHATE LEVELS REGULARLY!**
