Enjoy Clear Perfect
Soft Silky Water™

Spa Perfect cuts cleaning and scrubbing by 50% or more and saves money too! Spa Perfect's patented natural enzyme and botanical extract formula powerfully yet gently biodegrades body oils, cosmetics, suntan oils and other organics. **No more scum lines, clogged filters or cloudy smelly water.**

Spa Perfect is also a continuous cartridge filter cleaner. Since scum and oil don't build up, **soaking with nasty chemicals and acids is rarely required.** To clean, just rinse with a hose. Saves you a messy job & money too.

Spa Perfect is now formulated to eliminate and prevent excessive foaming. No brown bubbles – just clear, sweet smelling water.

Spa Perfect is 100% biodegradable. It contains no manufactured enzymes so it's non-toxic and non-irritating to skin, eyes and mucous membranes. **It's environmentally better.**

MADE IN USA

Directions: Use 1 oz. per 100 gallons of spa water per week (30ml per 380 liters). One capful per week treats a 400-gallon (1,500-liter) spa. Use twice per week during periods of heavy use. Do not use with or immediately after shocking.

**TIP: Ask your dealer about Natural Chemistry's 'Clean & Perfect'.
Nothing cleans spa surfaces better!**
