

## Instructions

**NOTE:** Cationic polymers used in many clarifiers, flocculants and polyquat algaecides should not be dosed to swimming pool water at the same time as metal control products. Cloudy water, precipitation and reduced product effectiveness may result. Wait 24 hours between additions.

### Directions for use:

This product is designed for use in properly balanced spa water.

**Initial Dose:** Add 1 capful (4oz) per 400 gallons directly to spa water evenly around the edge immediately after initial fill and after each drain and refill.

**Weekly Maintenance Dose:** Add 1oz per 400 gallons (one quarter of the large cap) weekly directly to spa water evenly around the edge.

**Do not exceed recommended dose**

**Do not use with biguanides**
