

spa
clear All Natural Clarifier

Clear is a natural clarifier made from the shells of crabs and various sea life. Crabs and other crustaceans have a product in their shells called 'chitosan' that attracts small particles of debris in water. Use to effectively and quickly clear problem water or to 'polish' dull water by removing small suspended particles.

Clear is compatible with all sanitizing systems, biodegradable and environmentally safe.

NOTE: **Clear** may be oxidized by high levels of sanitizer.

STANDARD DOSAGE RATE: (No premixing required.)

1 oz (30mL) per 200 gallons (758L) of spa water.

CLOUDY WATER DOSAGE RATE: (No premixing required.)

2 oz (60mL) per 100 gallons (758L).

DIRECTIONS:

Apply **Clear** at recommended dosage rate per gallons of spa water across water surface, concentrating on deep water areas. Using flip squirt cap, apply **Clear** directly onto surface until you reach suggested amount of ounces per gallons of water in your spa.

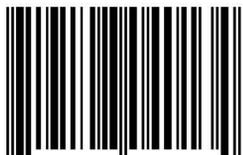

See side of bottle for measurement marks. Run filter system continuously for at least six hours after application.

Store below 120°F. Do not allow product to freeze.

**CAUTION: KEEP OUT OF REACH OF CHILDREN.
MAY IRRITATE EYES OR SKIN.**
