PHOSfree[®] COMMERCIAL AF

Reduce common problems caused
by high phosphate levels.

Reducing phosphate levels in swimming pools is easy with Natural Chemistry's **PHOSfree Commercial AF**. **PHOSfree** is formulated from lanthanum (rare earth compounds). **PHOSfree** effectively and efficiently removes phosphate. Remove phosphates and reduce pool problems!

DIRECTIONS:

With the circulation system operating: Maintain proper chemical levels. Backwash filter. Slowly add **PHOSfree Commercial AF** directly to: pool, skimmer, gutter or surge tank. Backwash filter as necessary. Apply in accordance with your state and local pool regulation. **Removing high phosphate levels may temporarily cause pool water cloudiness/turbidity. RETEST PHOSPHATE LEVELS AFTER 48 HOURS.**

Maintenance: Weekly, add 1 fl. oz. (30ml) of **PHOSfree Commercial AF** per 6,000 gallons (22,710L) of pool water.

For best results and to reduce the possibility of cloudy water use with an automatic dosage feeder.

Dosage Chart:

Phosphate reduction varies based on phosphate concentrations. Recommendations are for estimation purposes only.

PPB	100,000 gal (378,500L)	200,000 gal (757,000L)	300,000 gal (1,135,500L)
500	16 oz. / 473 mL	32 oz. / 946 mL	48 oz. / 1420 mL
1000	32 oz. / 946 mL	64 oz. / 1893 mL	96 oz. / 2839 mL
2000	64 oz. / 1893 mL	128 oz. / 3785 mL	192 oz. / 5678 mL
5000	160 oz. / 4732 mL	320 oz. / 9464 mL	480 oz. / 14,195 mL

Avoid contact with eyes and skin. **KEEP OUT OF REACH OF CHILDREN.**
EYES: Flush with cool water. Obtain medical attention if irritation persists.
SKIN: Flush with cool water. Wash with soap and water. Obtain medical attention if irritation persists. **INGESTION:** Do not induce vomiting. Rinse mouth with water, and then drink one or two glasses of water. Obtain medical attention. Never give anything by mouth if victim is unconscious.
