

aquapill

1. Pierce Dots with enclosed pin

2. With filter running, place pill in skimmer

Use Bi-Weekly for Trouble-Free Pools

Prior to using AquaPill 5, clean pools containing heavy algae growth. Keep the pump in operation for at least several hours after the AquaPill is put to use, and daily. The algaecide will be released slowly and constantly directly into the water circulation system.

Remove algae debris from the filter by regular backwashing or rinsing. Replace the AquaPill when the algaecide is expended as indicated by the complete disappearance of the amber color. AquaPill 5 is compatible with those chemicals used to treat pools, and is effective at both acid and alkaline pH. AquaPill 5 can be used in pools treated with chlorine chemicals and may reduce the amount of those chemicals normally required.

CAUTION

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin. Avoid contamination of food.

STORAGE AND DISPOSAL

Store AQUAPILL 5 ALGAECIDE in a safe place. Do not reuse the AQUAPILL. Dispose of the AquaPill in an approved landfill or bury it in a safe place away from water supplies. Open dumping is prohibited.

FIRST AID

IF SWALLOWED:

Call a Poison Control Center or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not give anything by mouth to an unconscious person. Do not induce vomiting unless told by a Poison Control Center or doctor.

HOTLINE NUMBER

In case of an emergency call toll-free 1-800-424-9300. Have the product container or label with you when calling a Poison Control Center or doctor or going for treatment.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Keep out of lakes, streams or ponds. Permits may be required for discharges containing this pesticide into lakes, streams, ponds or public water. For guidance, contact your regional office of the Environmental Protection Agency.
