

## Specifications

|                                 |  |
|---------------------------------|--|
| S3 Robotic Dimensions           | 16" x 16" x 17.5"  |
| S3 Robotic Weight               | 20 lbs.  |
| Filtration Method               | Internal filtration element independent of pool filtration system  |
| Filtration Ability              | Finest particles and large debris: bugs, twigs, leaves and pebbles |
| Filtration Element Maintenance  | Clean water rinse or machine wash                                  |
| Water Filtration Capacity       | 4,250 gallons per hour   |
| S3 Robotic Connection           | 60 Ft. floating double insulated cable                             |
| Power Supply                    | 28.5 Volt DC   |
| User Selected Cleaning Cycles   | Two - Perfect and Turbo  |
| Perfect Cleaning Cycle Duration | 3 hours (Perfect)  |
| Turbo Cleaning Cycle Duration   | 1.5 hours (Turbo)  |
| Surface Cleaning Ability        | Pool bottom, walls, steps and waterline                            |
| Transport & Storage             | S3 Robotic caddy (included)  |
| S3 Robotic Caddy Dimensions     | 20.75" x 20" x 34.75"  |
| Pool Types                      | In-ground pools  |
| Pool Shapes                     | All shapes   |
| Pool Surfaces                   | All in-ground pool surfaces  |
| Warranty                        | Two year limited warranty (Refer to owner's manual for details)    |

### Meets UL Standards

Baracuda S3 Robotic is ETL Listed to UL standards.

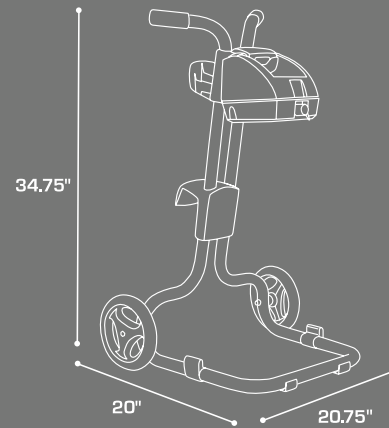

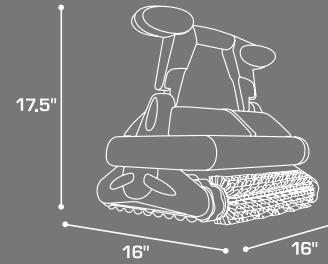

### Zodiac Pool Systems, Inc.

2620 Commerce Way  
Vista, CA 92081

[www.baracuda.com](http://www.baracuda.com)

The S3 Robotic automatic pool cleaner is manufactured for use in tile, concrete, vinyl and fiberglass in-ground pools. For sale in the United States, Canada and Mexico.

## Robotic

ROBOTIC POOL CLEANING SYSTEM

MAXIMUM EFFICIENCY

INTELLIGENT STEERING SYSTEM

QUICK WATER EVACUATION SYSTEM

SMART. SIMPLE. SAFE.

# BARACUDA

Advanced float assembly self adjusts for optimal wall and waterline cleaning 1

Lightweight construction and ergonomic handles allow for easy lifting 2

Powerful motor filters and circulates water throughout entire pool for enhanced water clarity 3

Versatile tracking system accommodates all pool surfaces 4

Aggressive scrubbing action prevents waterline build-up 5

High-strength lightweight alloy caddy 6

User-friendly control panel enables easy operation 7

# S3

## ULTIMATE POOL CLEANING SOLUTION

With today's busy lifestyle, the pool is a great place to relax and spend time with friends and family. Now, keeping your pool free of debris has never been easier. The S3 Robotic is built on Baracuda's long history as a global leader in automatic pool cleaning technology. It is designed to provide unparalleled cleaning for all residential pool shapes and surfaces. Portable, self-contained, simple, and cost-effective, the S3 Robotic is the ultimate pool cleaning solution.

### SMART

The S3 Robotic delivers a perfectly clean pool, free of debris and waterline build-up. It features an Intelligent Steering System (ISS) with an integrated flotation and navigation system to effectively clean the pool bottom, walls, steps, and waterline. And, the S3 Robotic is highly efficient. For just pennies per day, it automatically scrubs and cleans the entire pool. By operating completely independently of your pool's filtration system, it requires no additional pumps or filter lines, so you get maximum cleaning power with minimal power consumption.

### SIMPLE

The S3 Robotic's simple plug and play operation enables superior cleaning capability without the hassles. Ready to use right out of the box, it utilizes two preprogrammed cleaning modes. The Perfect Cycle provides intensive wall, bottom, and stair cleaning for a perfectly cleaned pool in 3 hours, while the Turbo Cycle operates in just 1.5 hours by focusing on the pool's floor.

### SAFE

Born from years of advanced robotic design expertise, the S3 Robotic delivers the safety and performance you'd expect from the world leader in automatic pool cleaners. Proven low voltage technology reduces energy consumption and costs. And its automatic shut off sensor along with a durable, double insulated power cord enable safe and simple operation.

SMART. SIMPLE. SAFE.
